MATHEMATICS OF THE USSR—IZVESTIYA

Том 50, №№ 1–3, 1986

Volume 28, Numbers 1–3 Pages 1–626

Volume Index of Authors

Anulova, S. V. An estimate of the probability that a degenerate diffusion process hits a set of positive measure 201

Baskakov, A. G. A theorem on splitting an operator, and some related questions in the analytic theory of perturbations 421

Chigogidze, A. Ch. Noncompact absolute extensors in dimension n, n-soft mappings, and their applications 151

Dmitruk, A. V. Quadratic conditions for a Pontryagin minimum in an optimal control problem linear in the control. II. A decoding theorem 275

Gordeev, N. L. Finite linear groups whose algebras of invariants are complete intersections 335

Grinevich, P. G. Vector rank of commuting matrix differential operators. Proof of S. P. Novikov's criterion 445

Grishkov, A. N. On the conjugacy of Levi factors in finite-dimensional binary-Lie algebras 305

Guseĭnov, F. V. On the question of extension of multidimensional variational problems 1

Karasev, M. V. Analogues of the objects of Lie group theory for nonlinear Poisson brackets 497

Kazarin, L. S. On a problem of Szép 467

Kholevo, A. S. On a generalization of canonical quantization 175

Korobeĭnik, Yu. F. Inductive and projective topologies. Sufficient sets and representing systems 529

Krylyuk, Ya. S. On the index of algebras of Cartan type in finite characteristic . 381

Makhnev, A. A. On TI-subgroups of finite groups 21

Manin, Yu. I. and Khoang Le Min' [Hoang Le Minh], The Radon-Penrose transformation for the group $SO(8)$, and instantons 189

Mogilevskiĭ, I. Sh. On a boundary value problem for the time-dependent Stokes system with general boundary conditions 37

Pchelintsev, S. V. Prime algebras and absolute zero divisors 79

Plaksin, V. A. The number of integers representable as a sum of two squares on small intervals 67

Polyakov, P. L. and Khenkin, G. M. Homotopy formulas for the $\overline{\partial}$-operator on $\mathbf{C}P^n$ and the Radon-Penrose transformation 555

Prokhorov, M. N. The absence of discrete reflection groups with noncompact fundamental polyhedron of finite volume in Lobachevsky space of large dimension 401

Rybakov, V. V. Decidability of admissibility in the modal system Grz and in intuitionistic logic 589

Stepanets, A. I. Classification of periodic functions and the rate of convergence of their Fourier series 99

Tarkhov, D. A. On an almost periodic perturbation on an infinite-dimensional torus 609

Temlyakov, V. N. Approximation of periodic functions of several variables by bilinear forms 133

Vasil'ev, V. A. Sharpness and the local Petrovskiĭ condition for strictly hyperbolic operators with constant coefficients 233

Yakubov, S. Ya. Multiple completeness in the sense of M. V. Keldysh of root functions of elliptic boundary value problems with a polynomial spectral parameter 413

ABCDEFGHIJ 8987
